WILL THE

PEOPLE

SUBMIT?

Following are the net results of the Indiana Statewide Popular Vote Commissions.

Democrats—absolutely control the election system in every county in Kentucky. In 95 counties there are two Democrats and one Republican. Election Commissioners in 10 other counties are two Democrats and one Populist Commissioner; and in the 11 remaining counties there is a solidly Democratic Board.

Republicans are in a hopeless minority of one and not two in 95 counties, and in 24 counties they are absolutely without representation on the Boards of Election. The members of the election party are apathetic in their contests and from whose most intransigent opposition there is no appeal.

The Republican organizations were not able to put up a single candidate in 100 counties, and it is notorious that the so-called Populists are nearly dead in Indiana in despite, having voted and voted with the Democratic party on every important occasion in recent years.

The mass of hypocrisy that was put on when Judge PAYNOR was elected a member of the State Election Commission, and the fact that the so-called "Great Conspiracy" is revealed in all its hideousness.

Has the Indiana people been so anxious to be the weak and passive as to justify these outrages against law and decency to drive them from its power?

Is it the supremacy of Wm. G. GANNON and his big-handed followers so important to the welfare of Kentucky as to condone this unexampled rape of the ballot?

Will the people submit?

Our warlike friends the fricassees ought to blame the ignorant popular for rioting in the boudoirs of Paris when members of the French Chamber pound each other during sessions of that body. The French are a heliopolis.

SPAIN has protested against the battleship Oregon and Iowa sailing around Cape Horn to the Philippines and demands their return to the United States, claiming the action in sending these ships to Manila is a violation of the terms of the protocol. Spain and her protest be d—n the d—ned fool's know when they've got enough?

The model towns of Fullerton, Ill., it is said, will be sold. By all means let jaw-stomping EUGENE DANA buy it, he's the only living man who knows how to run it.

One of the most important questions for the people of Mason county to determine at the coming November election is whether or not there will have Free Turnpikes for all time to come, and whether they will, in a manly, honest way, sanction the issue by the county of \$60,000 in 4 percent bonds to pay for the roads that have been contracted for by the Fiscal Court, and which embrace the only route to the city of Louisville.

These bonds can be sold at 4 percent interest only, and the people can gradually pay for the same and in that way acquire Free Turnpikes and settle the most vexatious problem that ever confronted the voters in this county.

The same questions are to be voted on by the people of Nicholas county; and The Carlisle Mercury so ably presents the case to the voters there that THE LEDGER transfers its arguments to the good people of Mason county.

If the bond issue is defeated tollgates will be erected on every road in the county and a sufficient number of guards will be required to keep the roads open, and the cost of guards will in a short time be greater than the purchase price of the roads, to say nothing of the trouble and bloodshed that might follow.

A few persons—and we are glad to say there are only a few of them—object to the bond issue on the ground that "we already have the turnpikes, and why should we pay for them?"

Is it possible that there are people in the good old county of Mason who will so loudly contend for such a proposition? How did you get the roads? The Fiscal Court, acting as your agent, virtually agreed to pay for the same, and on the strength of that agreement the turnpike commissioners contracted the roads for the county. Now, if the bond issue should unfortunately fail to carry, do you mean to say that you will keep the roads anyhow and not pay for them? Would that be honest? Let your conscience answer that question.

White there is law you cannot take property without just compensation being first made to the owner thereof, and even if you get the Golden Rule, you need not forget this fact, that the law will compel you to pay for the roads if you keep them.

Suppose by your vote you defeat the bond issue, what will be the result? Toll gates will be replaced. How much will it cost you to keep guards at the tollgates? How much will you have to pay in the way of damage suits for the use of the turnpike roads since the county through its Fiscal Court accepted the turnpikes? What amount of disorder will ensue when the tollgates are erected? Will the erection of tollgates be followed with mobs and violence?

The quiet, peaceful and economical way out of this difficulty is to vote for the bonds and pay for the turnpike roads. There is no other solution of the matter. A vote for bonds means Free Turnpikes, peace and order. A vote against bonds means tollgates and then, perhaps, violence and bloodshed.

Spain has protested against the battleship Oregon and Iowa sailing around Cape Horn to the Philippines and demands their return to the United States, claiming the action in sending these ships to Manila is a violation of the terms of the protocol. GIGANTIC TRUST.

The Continental Tobacco Company to Be Incorporated in New York City.

TO BE CAPITALIZED AT \$75,000,000.

It Will Control More Than Four-Fifths of the Plug Tobacco Output of the United States.

Actual Aggregate Cost of New Concern Exclusive of the Plug Tobacco Business of the American Tobacco Co., About \$60,000,000.

'NEW YORK, Oct. 28.—Nearly two years ago Col. J. B. Hughes, of Hamilton, O., and his associates, Fletcher S. Heath, a banker, of the same city, and Perry S. Hart, a manufacturer, of Toledo, O., general, began to syndicate the great plug tobacco manufacturing establishments of this country and form an organization which, although at that time without the design, is now to control more than four-fifths of the tobacco output of the country and take from the American Co. its entire plug trade.

For more than eleven months past, eight or ten of the largest capitalists in the country, including three or four of the leading tobacco manufacturers, have devoted almost their entire time to the work of perfecting this organization and bringing the manufacturers together. A month before the declaration of war against Spain \$28,000,000 in cash, the amount necessary to begin the transfer of the properties, was made ready, but the prospect of war caused all plans to be given up. Large life insurance companies in New York City at one time contracted to take upwards of \$30,000,000 in the first bonds, while Russell Sage and his associates had arranged to place half as much more.

Col. Hughes and Mr. Fletcher S. Heath procured all of the contracts for the purchase of the plants while the finally successful brokers, Messrs. Morris and Co., of New York, arranged the meetings for the Continental Tobacco Co. Messrs. Lawrence and Hughes, of No. 190 Broadway, New York, complete the syndicate and thus assumed in holding the property. The latter have now about completed the articles of incorporation of the Continental Tobacco Co., and they will likely be filed for record this week. The company will have a capital of \$75,000,000, half to be paid in cash and the other half in one-half common stock. The actual aggregate cost of the above concern exclusive of the plug tobacco business of the American Tobacco Co., was a little less than \$60,000,000 cash. Messrs. Paul J. Sorg, of Middletown, O., Capt. P. H. Mayo, of Richmond, Va., and Daniel Scotten, of Detroit, Mich., whose establishments are among those purchased by the Continental Tobacco Co., will personally retire from business, but their present active managers will continue to direct the manufacture of their individual concerns. Col. Hughes and Fletcher S. Heath are arranging the details of the new organization.

WANTS STATEHOOD.

Gov. Miguel Otero of New Mexico, Re-vises His Representations for Admission to the Union.

WASHINGTON, Oct. 28.—Gov. Miguel A. Otero of New Mexico, in his annual report to the secretary of the interior, vigorously renews his representations for the entry admission of New Mexico to statehood, and portrays the undeveloped resources of the territory awaiting capital.

He estimates the total population of the territory now to be 200,000, including an increase of 35,000. Of the 1,100 men from New Mexico in the war with Spain at least half were national guardsmen.

SCHOONER ST. PETER, SINKS.
All on Board Perished Save Capt. John Griffin, Who Was Rescued in an Unconscious Condition.

ROCKAWEE, N.Y., Oct. 28.—A special from Sodus says:

The three-masted schooner St. Peter, of St. Vincent, sank Thursday noon about five miles northwest of Sodus, on Lake Ontario, with all on board save Capt. John Griffin, who was rescued in an unconscious condition. The schooner showed signals of distress early Thursday morning as she drifted past Charlotte, and the forenoon the people of Sodus, who had seen the St. Peter and immediately telephoned to Sodus Point, asking that help be offered. The tug Cornelia started for the rescue, but the great seas nearly swamped the boat and the Cornelia was compelled to return to the harbor. Word was sent to Charlotte that the distressed vessel had been sighted near Pulaskiville, and the tug again started with the life-saving crew. When within a mile of the St. Peter the crew on the Proctor were horrified to see the distressed ship sink. In ten minutes the tug was cruising about the spot where she went down. Capt. Griffin was picked up in an unconscious condition. After spending half an hour looking for the other members of the ill-fated crew, the tug started for the Proctor. The captain was soon found to be dead. The wife of the captain was lost, also Mrs. McLaren, of King.

Eight persons at least perished. Ole Jolly and Jacob Verburg, of this town, were standing on the shore when the St. Peter went down and declare that the boat was not more than half a mile from shore. They say that the St. Peter lost her rudder and that the heavy seas caused her to spring a leak. The St. Peter was bound from Oswego to Toledo, with 700 tons of coal.

MAIL SERVICE IN MANILA.

United States Postal Agent Value Report to the Post Office Department That Everything is satisfactory.

WASHINGTON, Oct. 28.—United States Postal Agent, Manila, at Manila, has reported to the Post Office Department on the postal arrangements there. He says everything is moving satisfactorily, and that the largest business houses report the mail facilities much better than at any time under Spanish rule. He speaks in glowing terms of the island, expresses the hope that the United States will retain it. He says there is a large number of people in the country who are not satisfied by the United States. He adds that on September 19 he had a short talk with Aguinidio at Malabato about the mails in the provinces under Aguinidio's control, where the former Spanish officials are out and there is no regularly constituted postal authority in charge. Aguinidio, who promised to send a representative to him, has not done so, but the post office agent told that if he could identify the agent that the mails sent out would be delivered to address in proper condition he would deliver the mails.

Spanish Commissioners Abandon the Effort to Sadden Cuban Debt on America.

ASK MERCY FROM THE CONQUERORS.

All Differences Regarding Porto Rico and the Selection of the Island of Guan Arranged.

United States Guarantees That Life and Property Shall Be Secured in Cuba—Commissioners Will Next Take Up Philippines Question.

PARIS, Oct. 28.—The Spanish peace commissioners have accepted the negative views of the United States commissioners towards the proposed assumption by the United States of the Cuban debt.

The American commissioners have firmly but courteously declined to assume for the United States the entire or joint responsibility for the Spanish financial conditions, and the Spanish commissioners have finally abandoned the effort and have agreed that the Cuban article of the protocol shall, without any regard to a place in the ultimate treaty of peace. It is agreed for the improvement of the island should be left to the United States with the title. The situation is regarded as materially different from that in Cuba, where the United States gains nothing substanti-

ative in Cuba. There will be perpetual guarantees on this score.

Undue significance has been attached to the dispatch of a special messenger from Washington Wednesday to the president at Philadelphia. Almost every day a long report has come by telegraph from J. M. Davis, president of the American commissioners at Paris, telling what had been accomplished, what the Spanish commissioners were seeking and what the American commissioners propose to do at the next meeting.

It is expected that the commissioners will now take up the subject of the Philippines. The American commissioners have given this subject much attention, so far as it never appeared before in joint sessions, and have in the shape of one speech made forth by the Spaniards at the beginning of the sessions to have the United States abandon Manila as a precedent to further negotiations on the subject of the Philippines. The American commissioners among other things have been looking into the subject of the Cuban debt, and which they have much longer to do with it, a mile or the line. It is unlikely that the same rule will be applied to that debt as was insisted upon relative to the Cuban debt. In other words, if the United States annexes the Philippines, which seems now to be the most logical outcome of the situation, it might be reasonably contended that at least so much of the debt as represents the amount of the debt for the improvement of the island should be left to the United States with the title. The situation is regarded as materially different from that in Cuba, where the United States gains nothing substanti-

THE ANGLO-FRENCH MUDDLE.

In spite of the fact that the Spanish commissioners had a general regard of their efforts, doubts of the success of their hope do of course, have been keen and their contention has been so vigorously prosecuted that the final conviction of their inability to win their point brought to the Spaniards such a shock and depression that consistently with these dispatches at the time, there were grave doubts as to the continuance of the negotiations.

In support of this contention, the Spanish commissioners, following the Senor Montero's session, and on Tuesday last, would have resigned the presidency of the Spanish peace commission, had he not believed that his so doing may have grievously shaken, even if he had not unseated Senor Sagasta's government.

From this stand-point, if for no other reason, Senor Montero maintained his position, and at Wednesday's session, following the final conviction arrived at on Monday, the Spaniards announced that they would force further argument on the Cuban debt and agreed that, practically in the spirit of the protocol, the article about Cuba should go forward into the final treaty.

Thus Spain agrees to relinquish so evidently over claim that Cuba without any terms of condition.

All differences, if any existed, regarding Porto Rico and the selection of the Island of Guan were also arranged by a mutual understanding, and the commissioners found themselves well-nigh touching the Philippine question, which will be taken up next week.

The session of the joint commissioners, which began Thursday at 2 p.m. ended at 10 p.m.

WASHINGTON, Oct. 28.—The intimation conveyed by the American commissioners to the Spanish commissioners at Monday's session of the peace conference at Paris, that the position of the United States with respect to Cuba and the Cuban debt, could not be regarded as subject to change and that consequently the American commissioners would remain resolute with respect to the protection of other holds under the protocol, the Spanish side had the desired effect. The one concession as to Cuba, that our commissioners will make will be to guarantee for the United States that life and property shall be secure in Cuba. This responsibility the United States assumes only until such time as a stable government shall be formed and oper-

ates for, with the annexation of the Philippines, we should require a territory almost as large as the British Isles with a teeming population of more than 8,000,000 people. It will be for the American commissioners to arrange the details for the transfer of the Philippines to the United States, as is expressly stipulated in the peace protocol. The final disposition of the Philippines will be left to the Spanish commissioners, so that there is ample warrant, unlike the case of Cuba, for full disclosure of all questions of the Philippine debt, municipal and insular. It should be said that the adjustments already accomplished will stand in the final treaty, unless opposing views and positions on the Philippine question should develop hereafter and bring to naught the efforts of the future and at the same time the results already obtained.
